What Does This Privacy Policy Cover?

This User Policy covers the treatment of personal data ("**Personal Information**") gathered when you are using or accessing the Services. This User Policy also covers our treatment of any Personal Information that our business partners share with us or that we share with our business partners.

This User Policy does not apply to the practices of third parties that we do not own or control, including but not limited to any third party websites, services and applications ("**Third Party Services**") that you elect to access through the Service or to individuals that we do not manage or employ. While we attempt to facilitate access only to those Third Party Services that share our respect for your privacy, we cannot take responsibility for the content or privacy policies of those Third Party Services. We encourage you to carefully review the privacy policies of any Third Party Services you access.

In addition, a separate agreement governs delivery, access and use of the Services (the "**Service Provider Agreement**") and the processing of Customer Data.

What Information Do We Collect and Receive?

The information we gather enables us to personalize, improve and continue to operate the Site. In connection with certain aspects of the Site, we may request, collect and/or display some of your Personal Information. We collect and receive Customer Data and other information and data in different ways:

- **User Data or Account Information.** Users routinely submit User Data to Launchmetrics when using the Services.

When we create an Account for you, you will provide us information that could be Personal Information, such as your **username, password, email address, affiliations, timezone, language, company name and other requested information.** You acknowledge that this information may be personal to you, and by creating an account on the Services and providing Personal Information to us, you allow others, including us, to identify you and therefore may not be anonymous. You are able to change any of the details you provided in your Account settings. We may use your contact information to send you information about our Services. You **may unsubscribe from these messages by sending an email to your Account Manager.**

- **Other information.** Launchmetrics also collects, generates and/or receives other information:

I. Usage Information:

- **IP address information and other information collected automatically**

We automatically receive and record information from your web browser when you interact with the Services, including your IP address and cookie information.

Generally, the Services automatically collect usage information, such as the number and frequency of visitors to the Site. We may use this data in aggregate form, that is, as a statistical measure, but not in a manner that would identify you personally. This type of aggregate data enables us and third parties authorized by us to figure out how often individuals use parts of the Services so that we can analyze and improve them.

- **Log Data**

As with most websites and technology services delivered over the Internet, our servers automatically collect information when you access or use our Websites or Services and record it in log files. This log data may include the Internet Protocol (IP) address, the address of the web page visited before using the Website or Services, browser type and settings, the date and time the Services were used, information about browser configuration and plugins, language preferences and cookie data.

We collect log information (IP addresses or users' information) for different reasons like:

- Detecting or preventing fraud, and unauthorized access;
- Help users and address their needs while using the platform;
- Help users to know who did what and when;
- Provide us with user behavior information on the Site;
- Keep improving our product in terms of features scope and security needs.

- **Aggregate Information**

We collect statistical information about how both unregistered and registered users, collectively, use the Services ("**Aggregate Information**"). Some of this information is derived from Personal Information. This statistical information is not Personal Information and cannot be tied back to you, your Account or your web browser, unless you give us the explicit agreement to do so.

- **Third party Data**

We collect content that has been made publicly available on the Internet (including Personal Data) for monitoring purposes. Such content is accessed and used by us. Such content is also maintained, accessed and used by Users on the Discover platform in connection with our provision of the Services.

When we are crawling the Internet and Social Media to provide you with Data on Discover, we are Data Controller as we decide what data we collect, how and where we collect it and why this data is used in connection with its services. User is Data Controller as well as User can decide and is responsible for what happens to this Data.

The legal basis on which we process data in these circumstances is pursuant to our "legitimate interests". Our legitimate interests are in providing our Services to our Discover Users, including the monitoring features of publicly available data or data made directly available on social media by Authors. In turn, this allows our Users to obtain the best FLC coverage, consolidate print, online and social monitoring and reporting into a single tool and create and share newsletters, coverage reports and books easily. This legal basis requires a balancing of the legitimate interests of the Data Controller with the interests or fundamental rights and freedoms of the data subject which require protection of personal data. In this situation the data subjects (Authors) made the crawled data publicly available and retain control of the privacy settings of their publications on their website or social media. As such the interests, fundamental rights and freedoms of these data subjects are not prejudiced or overridden.

In the course of using our Service you may also provide us with personal information about third parties, in particular information regarding potential recipients of the newsletters and news digests that you are distributing through the platform. In this case, Launchmetrics is a Processor of this data and you, as a User, are the Controller as we store this data but you decide and are responsible for what happens to it.
